Optical Clarity - Why It's Important

Optical Clarity

The NEW VIKING™ 1740 Series auto-darkening helmets have a perfect EN379 - 1/1/1 optical clarity rating. This test measures the performance of the auto-darkening filter on four separate optical categories.

Each Category is graded on a scale of 1-3, with a score of 1 being the best and 3 being the worst.

Categories

1. **Optical Class** – Distortion
2. **Diffusion of Light Class** – Blurriness
3. **Variations of Luminous Transmittance** – Shade Consistency & Accuracy
4. **Angle Dependence of Luminous Transmittance Class** - Shade Consistency & Accuracy at an Angle

Perfect Lincoln Electric rating of 1/1/1

NOTE: The illustration above represents the improved clarity possible with the latest VIKING helmets. Visit your local Lincoln Electric distributor to view the upgraded VIKING clarity under actual welding conditions.

CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
